PRESS RELEASE JANUARY 26TH 2009

A2 is a new Swedish furniture brand established in 2008 by the design studio A2 designers. It started as an idea of an own furniture collection based on creative and unique objects produced near our studio. To some it might be a crazy project and we can only admit – it is and in addition we believe in it.

Our vision is to create a new, young and brave brand that dare to realise interesting and a bit different ideas. We simply want to challenge the furniture world.

We cherish a genuine production with carefully chosen materials which results in high quality products with an identity. All our products are, and will always be, produced by skilled craftsmen in Småland, Sweden.

At the Stockholm Furniture Fair we present our first collection of creative and distinct objects. Visit us in C23:28 and explore Angle, Hidden, Link, Bo, Collect, the Hexagon table family and the Pile chair family.

For more information visit www.a2designers.se or contact Sara Larsson, +46 (0)70 662 11 60, sara@a2designers.se.

MADE IN SMÅLAND, SWEDEN
